Product Description

Here are some features of the Acrylic Bathtub Tray :

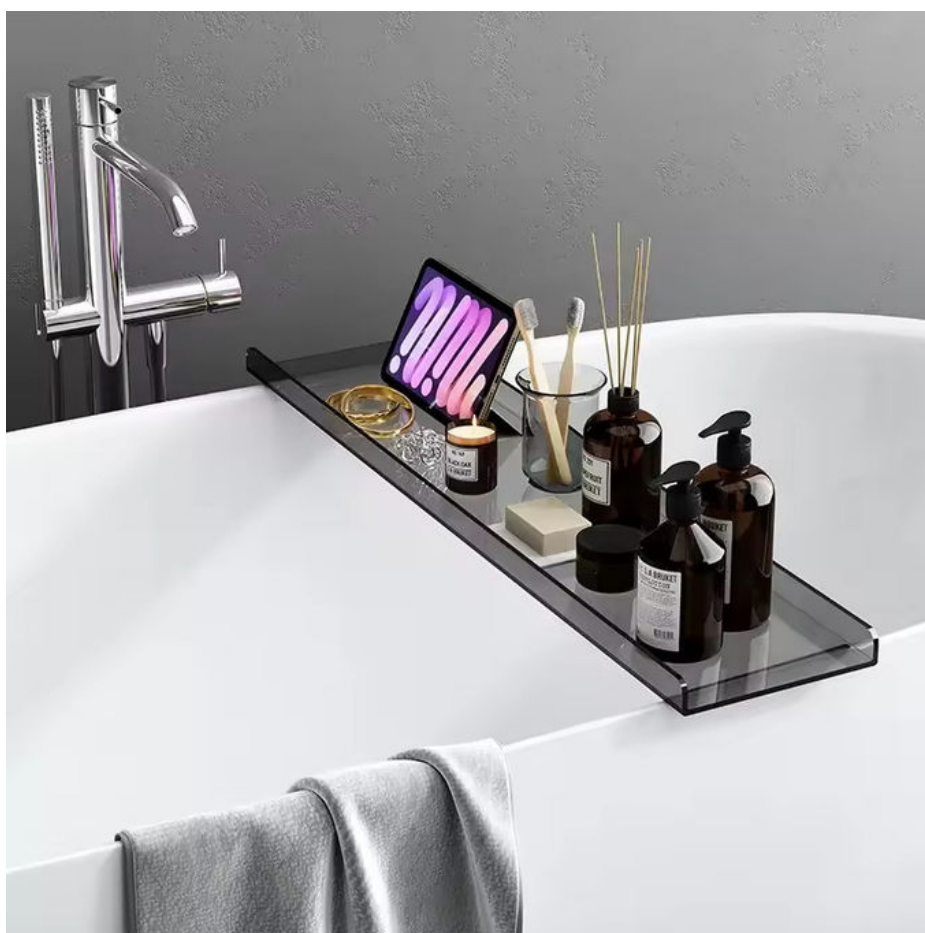

Customizable Color and Design: The ability to customize the color and design of your acrylic bath tray is a key feature. This allows you to choose a color that matches your bathroom decor and a design that suits your personal style.

Durable and Waterproof Material: Acrylic is a durable and waterproof material that is ideal for use in the bathroom. It can withstand exposure to water and humidity without becoming damaged, making it a long-lasting choice for a bath tray.

Functional Design: A functional design is another important feature to consider. This could include things like a non-slip surface to keep the tray stable in the bathtub, raised edges to prevent items from sliding off, or built-in compartments to hold items like soap, shampoo, and bath salts. The tray should also be easy to clean and maintain.

Color	Customized
Material	Acrylic
Product Dimensions	82 x 20 x 3cm
Shape	Rectangular
Tray Type	Serving Tray
Special Feature	Sturdy
Style	Modern
Finish Type	Polished
