Product Description

Scientific Design

The short rolling stool chair combines style and functionality with its ergonomic backrest that contours to support your waist, effectively reducing pressure on your lower back. Its height is optimized for comfort, making it ideal for extended use.

Premium Materials

Crafted from transparent acrylic and high-elasticity sponge, this stool offers both aesthetic appeal and comfort. The double-layered reinforced PP frame ensures enhanced stability, while the high-rebound sponge padding provides a soft, cushioned seat.

Efficient Movement

Featuring 360-degree rotating wheels, this stool glides smoothly and remains stable, allowing you to transition effortlessly between tasks without needing to stand up.

Versatile Applications

Perfect for tasks that involve squatting or bending, this rolling stool helps alleviate pressure on your waist and knee joints. It is versatile enough for various activities such as house organization, tying shoelaces, garage repairs, garden trimming, and nail and foot care.

After-Sales Service

We are committed to providing exceptional after-sales support. Should you have any questions or concerns, please contact us for timely and satisfactory solutions.

Enjoy comfort, style, and convenience with our short rolling stool chair, designed to make your tasks easier and more comfortable.
